(NPIC Project 251165)

25X1

1. In response to the referenced requirement, an analysis of the latest [REDACTED] photography of [REDACTED] revealed that the FIX 24 facility (572220N-0213400E) and the FIX 8 DF facility (572230N-0213400E) near Ventspils, USSR are present and appear operational.

2. Limited interpretability of the photography precluded the mensuration of the antenna elements at both DF facilities. However, the configurations of both facilities appear the same as when first identified on photography of [REDACTED]. There was no discernible evidence of dismantling of the antenna arrays or support buildings at either facility.
